RE: Restriction of Hazardous Substances (RoHS) Compliance

To Whom It May Concern:

Uniroyal's vinyl products are compliant with RoHS based on the requirements list below obtained from the web address www.rohsguide.com. Levels were determined by review of MSDS of raw materials and mass balance. The vinyl was not tested for these compounds.

- Lead (Pb): < 1000 ppm
- Mercury (Hg): < 100ppm
- Cadmium (Cd): < 100 ppm
- Hexavalent Chromium (Cr VI) : < 1000ppm
- Polybrominated Biphenyls (PBBS): < 1000ppm
- Polybrominated Diphenyl Ethers (PBDE): < 1000ppm
- Bis (2-ethylhexyl) phthalate (DEHP): < 1000ppm
- Butyl benzyl phthalate (BBP): < 1000ppm
- Dibutyl Phthalate (DBP): < 1000ppm
- Diisobutyl phthalate (DIBP): <1000ppm

I certify that the above statement is true and correct to the best of my knowledge.
