

### **LABELING FOR UPHOLSTERY PRODUCTS TO BE SOLD IN THE STATE OF CALIFORNIA**

Naugahyde and all other Uniroyal Engineered Products materials that meet California Technical Bulletin 117-2013 contain one or more inorganic flame retardant chemicals. One of these chemicals is antimony oxide (CAS# 1309-64-4), which is listed in the California OEHHA list.

Pursuant to California Senate Bill 1019 (Section 19094 of the California Business and Professions Code), upholstery containing our materials and sold in the State of California is required to have a label that includes the following language:

The upholstery materials in this product:

  X   contain added flame retardant chemicals.
